The second **JABBERWOCK** album "Sweet Limbo" again proves that this band has an own style incomparable to everything you have ever heard before. The intensity of this new sound reminds somehow of NIN, Ministry and even Aphex Twin - but **JABBERWOCK**'s brute ElectroRock never copies anything - they re-invent a cool and outstanding style with elements from ElectroClash, ElectroRock and even Electro.

Pulsating beats, nihilistic guitars, levitating keyboards and distorted female vocals, presenting cynical and sarcastic lyrics, will make you an addict. Lyrics like "Fake", "Faster", "Brainbondage" and "Clean" are real highlights in times of senseless and meaningless pop-culture. A great artwork finishes an impressive and unique piece of art. **JABBERWOCK** - the name of an evil ghost from "Alice Through the Looking Glass", the name of an asteroid - and now the name for a comet coming from Paris that will change our lives.

Speed, obsession, confusion and rage are the muses of Jabberwock's dark and wild electro-indie music. Ambushes of mutant female vocals, a bombardment of electronic beats, clinic assaults of a metronomic bass, and hypnotic layers of an obsessive guitar create a remarkable and thrilling view of our short existences.

On stage Jabberwock offers a compact set-up that presents both the spontaneity of rock music and the deadly precision of electronics. Always on the edge but always under control, Jabberwock does not simply play its music, it blasts its music. When the venue allows, the Kosmos4k team completes the show with an exciting VJ-set.

This French band has played in several French and Belgian concert halls, such as the Batofar, the Cabaret sauvage, the Tamanoir, the OPA, the flèche d'or, the Dark Omen festival, the Botanique, the Magasin4...  
Jabberwock is signed on Black Rain Records, a German dark music label. After a first CD full of hits and thrilling tension, Jabberwock presents with « Sweet Limbo » a new album full of power and musicality.

This new release deals with the distress of human being in an impersonal society without marks. The atmosphere is dark, oppressive and cold without using the usual clichés. Jabberwock breeds several musical genres and creates a very personal piece with an unique style that will immediately be recognised. The very special album artwork even adds more substance with its cold images and its visual impact.

**Get caught by Jabberwock's mists and they will never release you.**
